

Capacitive Coupling Clamp

SFT 415

- IEC / EN 61000-4-4
- Burst tests to interconnection lines

Technical data:

Diameter for cable	up to 40 mm
HV connectors	on both sides (type: Fischer)
Distance between coupling plate and ground plate	10 cm
Dimension	100 cm x 14 cm x 14 cm (L*W*H)
Insulation test voltage	5 kV (1,2/50 μ s)
Coupling capacitance	typ. 100 pF – 1000 pF
Weight	approx. 6 kg

SFT 415-1

With protection cover
Weight app. 7.5 kg

Connecting for HV-cable
Type: SFT 430 (1m long)

Convenient carrying handle
on the back of the coupling
clamp.
